Deposits:

All keg rentals are subject to a \$100 per keg deposit if not returned within 45 days of pick up.

Tap rentals with keg purchase are subject to a \$5 tap deposit if not returned within 45 days of pick up.

Tap rentals without keg purchase are subject to a \$15 tap deposit if not returned within 45 days of pick up.

Keg Pick Up, Return, and Liability:

Keg sales must be pre-ordered by the Tuesday or Wednesday prior to a Thursday or Friday pick-up, allowing for the two-day custom fill turn around. No day of sales will be accommodated.

Signer must be 21 years of age or older, present a valid photo ID (driver's license, passport, military ID, state ID) and sign the keg information sheet required by the Virginia State Liquor Board.

Signer accepts all responsibility for keg and its supplies. The signer will be liable for any minor consumption or over service of alcohol that may ensue.

Kegs and supplies must be returned in the condition in which they were given to signer or they will be subject to deposit fees.

Proper Beer Service:

Beer should be kept at about 40 degrees Fahrenheit for optimum taste.

Once the keg is tapped, the beer should be consumed within a couple of days.

If you have never tapped a keg before, let us know and we will be happy to show you.

Once the keg is tapped, you do not have to pump it for the first pour as there is already a lot of pressure in the keg. There is no rule of thumb for how many times to pump the keg while pouring, but too few and too many pumps can cause foam.
